WASHINGTON, June 30.—A bil- lion dollar trade balance—the great- est in American history—in a year which has seen commerce depressed by eleven months of world war is the commercial record of the United States. Official announcement was made today at the department of commerce that with the closing of the fiscal year at midnight it was certain that the billion dollar mark had been passed.

"The figures for eleven months ending May 31st", it was announced, "show a favorable balance of \$983,117,479."

Surpasses Highest Record. As thirteen ports which ordinarily handle ninety per cent of the country's foreign trade show for June an export balance of approximately \$60,000,000, it is now known that the excess of exports over imports has at this date exceeded \$1,000,000,000, surpassing by nearly \$400,000,000 the highest record heretofore made.

Figures indicating that new high record would be made have been placed before President Wilson and the cabinet from time to time by Secretary Redfield. Only today's official announcement was lacking. Generally, the showing was considered all the more gratifying because it was made despite the paralysis of ocean shipping and the stagnation in the cotton market which depressed America's second most valuable crop.

Department of commerce experts point out that the immense trade balance is not owing to orders for munitions of war. In fact, manufactures generally other than of foodstuffs have been less than in the similar period before the war.

GREATEST TRADE BALANCE IS SHOWN

Billion Dollar Mark Is Passed in Fiscal Year Just Closed

REVERSE GOLD MOVEMENT

Showing Is Considered More Gratifying Because It Was Made Despite Conditions

NEAREST APPROACH WAS 1908

WASHINGTON, June 30.—The nearest approach to the billion dollar trade balance—the great- est in American history—in a year which has seen commerce depressed by eleven months of world war is the commercial record of the United States. Official announcement was made today at the department of commerce that with the closing of the fiscal year at midnight it was certain that the billion dollar mark had been passed.

"The figures for eleven months ending May 31st", it was announced, "show a favorable balance of \$983,117,479."

As thirteen ports which ordinarily handle ninety per cent of the country's foreign trade show for June an export balance of approximately \$60,000,000, it is now known that the excess of exports over imports has at this date exceeded \$1,000,000,000, surpassing by nearly \$400,000,000 the highest record heretofore made.

Figures indicating that new high record would be made have been placed before President Wilson and the cabinet from time to time by Secretary Redfield. Only today's official announcement was lacking. Generally, the showing was considered all the more gratifying because it was made despite the paralysis of ocean shipping and the stagnation in the cotton market which depressed America's second most valuable crop.

Department of commerce experts point out that the immense trade balance is not owing to orders for munitions of war. In fact, manufactures generally other than of foodstuffs have been less than in the similar period before the war.

"The normal sales of manufactures during peace", said an official statement on that point "were greater than those under existing war conditions. Because of this fact and the extraordinary shrinkage of exports of crude materials it is found that the net increase in our total exports has been wholly in foodstuffs."

Reverse Gold Movement. The movement of gold between the United States and the outside world, which at the beginning of the war was a subject of great concern, has been reversed in overwhelming ratio and represents payments for American exports.

"The inward flow of gold", says the department's announcement, "which became pronounced about the commencement of the current year, continued in May at an accelerated rate, imports amounting to \$31,136,311 against \$1,972,411 in May, 1914. Gold exports totalled \$1,277,554 compared with \$16,835,202 in May, 1914. In the eleven months ending May, 31st, 1915, gold imports totalled \$119,227,015, an increase of \$56,505,468 while gold exports aggregated \$143,402,160, an increase of \$79,470,655 over a like period a year ago."

Nearest Approach in 1908. The nearest approach to the billion dollar record was in 1908 when a favorable balance of \$666,000,000 was shown for the United States. In 1901 there was a balance of \$664,000,000 and in 1903 of \$652,000,000 while in 1914 the balance dropped to \$470,000,000. The last time it showed against the United States was in 1893. This billion dollar balance for the fiscal year is distinct from the billion dollar net balance which government officials have predicted would be reached by the United States during the present calendar year.

War News Summarized

A German submarine has shelled, torpedoed and sunk the Dominion line freight steamer Armenian off the coast of Cornwall, England, and as a result twenty Americans are among the missing. The Armenian, flying the British flag, carried a cargo of mules from Newport News, Va., and twelve of the missing are negroes.

British troops supported by their warships and the guns of the French have carried several lines of trenches in the neighborhood of Saghir Dere on the Gallipoli peninsula in brilliantly executed infantry attacks. There was hard fighting here on June 28, the Australians, the Royal Scots, the fusiliers, the Lancashires and Gurkhas being engaged, and after it was over, according to Gen. Ian Hamilton's official report, the trenches were full of dead and many had been buried under the wreckage caused by the fierce bombardment prior to the assault by the infantry.

The Galician forces of Grand Duke Nicholas are still falling back before the Austro-German assaults. In eastern Galicia, on the Gnila Lipa river and on the Bug river below Kamionka Strzemiowa, the Russians are offering stubborn resistance, but the Teutons claim success there as well as between the Bug and Vistula rivers.

The Austro-German forces are continuing their progress in southern Poland in the Taney plain. They have occupied a border height near Frampol and Zaklikow and have captured the latter place.

Further northwest they have captured Zawieshost. Artillery bombardments are reported from different points on the western front. The French war office states that in the Argonne region the Germans, after a three days' bombardment, attacked the allied positions on the road between Benarville and Le Four De Paris, but after a violent engagement were repulsed everywhere except near Bagatelle, where they gained a foothold in some parts of the allied lines.

In the Italian theater the Italians are showing greater activity along the Isonzo front. Along the entire southwest front artillery actions are in progress.

WASHINGTON, June 30.—The Schooner Annie Larsen, which has zig-zagged the north Pacific Ocean with a cargo of war munitions since she left San Diego, California, in March, was undergoing a two times here tonight and at Hoquiam, Wa. where she put in for food and water. Following a customs department investigation instituted today to learn whether the schooner committed fraud in not going to Topolobampo, Sinaloa, Mexico, after clearing for the port, came the beginning of an inquiry by United States District Attorney Clay Allen of the western district of Washington to learn if the Annie Larsen was waiting all these months for the start of a new Mexican revolution. It was admitted that the arrest of General Victoriano Huerta and others at El Paso, Texas, recently influenced this line of inquiry, which if substantiated would go far to explain officials' inexplicable wanderings.

Walter Page of Kansas City, an American citizen, pursuer of the Annie Larsen and in full charge of her movements, was ordered to stay in his cabin and was not allowed to talk to anyone. The cargo consisted of 4,000 Springfield rifles with cartridge belts and bayonets and one million rounds of ammunition.

A total of \$80,000 was vetoed in H. B. 951, making appropriations for the state penal and reformatory institutions.

The amounts cut from each institution's biennial allotment follows: Joliet penitentiary, \$50,600; Southern Illinois prison, \$5,000; State Reformatory, Pontiac, \$25,000.

Other Bills Vetoed. H. B. 116 (Webster) Appropriating \$1,500 for the relief of Henry Menke of Chicago. Vetoed for the reason that the claim is too far in the past to warrant approval.

H. B. 493 (Turner) Appropriating \$1,000 to reimburse Louis B. Anderson for money expended in treatment following injuries received while a member of the Illinois National Guard. Vetoed on the opinion of the attorney general.

H. B. 718 (Scanlan) Enabling the organization of life insurance companies to business on a mutual or cooperative plan. Permits existing corporations writing assessment plan life insurance to qualify under the act. Vetoed for the reason that the bill gives the members of policy holders no right to vote nor means of exercising a check upon the management or expenditures of the companies operating under the law.

H. B. 103 (Shurtleff)—Appropriating \$2,500 for the relief of John Brown of Woodstock for injuries received while he was serving as a member of the Illinois National Guard. Vetoed for the reason that the bill is too old.

H. B. 26 (Dudgeon)—Appropriating \$1,200 per annum to each county for aid in paying the salary of agricultural advisors for incorporated farm associations. Vetoed for the reason that in view of the large appropriations it cannot be allowed at this time.

S. B. 347 (Bailey)—Giving the state public utilities commission authority to fix the amount of the capital stock any corporation under its jurisdiction issued.

S. B. 103 (Bailey)—Authorizing the state to collect a fee of one dollar a thousand on bond issues of public utilities. Both vetoed for the reason that they would materially reduce the revenues heretofore produced by section 31 of the public utilities act.

One of the last bills to be signed by Governor Dunne today was H. B. 357 (Thomason) providing that graduates of the eighth grade residing in districts which do not provide four years of recognized high school work shall be admitted, upon the payment of tuition, to any recognized public school for the completion of such portion of a four-year course as is not provided by the home districts.

GENEVIEVE CLARK WEDS NEW ORLEANS EDITOR

CEREMONY TAKES PLACE AT CLARK HOMESTEAD AT BOWLING GREEN

People Celebrate Event as Though it Were a Royal Occasion—Thousands Attend.—Presents Are Many and Costly.

Bowling Green, Mo., June 30.—Miss Genevieve Clark, the twenty-year old daughter of Speaker Champ Clark of the national house of representatives, was married at four o'clock this afternoon to James M. Thomson, editor of the New Orleans Item.

Ceremony is Said on Lawn. The ceremony took place on the lawn of "Honey Shuck", the Clark homestead—so-called because of the large honey locust trees that adorn the grounds.

The bridal party stood under a white pergola, built under a honey locust tree and almost hidden in the foliage.

Promptly at 4 o'clock the orchestra concealed in foliage began the strains of the Lohengrin wedding march, and Miss Clark, leaning on her father's arm and preceded by eight ushers, eight maids of honor and by the bride's maid walked from the old fashioned house to the pergola where she met the bridegroom.

Guests From All Parts of State. Speaker Clark gave away his daughter and the Episcopal ceremony was read by Rev. Robert S. Boyd, pastor of the First Presbyterian church of Louisville, Ky. Never before in the history of the state has there been a wedding like that of the speaker's daughter. A general invitation had been issued to all the people of Missouri, and from all parts of the state they came—some by train, some by carriage and some by automobile.

Thousands from this, Pike, county and hundreds from other parts of the state mingled on the lawn with social and political notables from all parts of the union.

This town of 2,000 inhabitants, celebrated the event as though it were a royal occasion. From every window a flag was flying, the streets were gay with bunting and the townspeople vied with each other in making the wedding guests—thousands of them—feel welcome.

In scores of homes wedding cakes were baked for the occasion and hundreds of cakes arrived from all parts of the state. Tables were set on the lawn and in the house for the wedding supper.

Among the well known guests were Colonel George M. Harvey, the magazine publisher, and Mrs. Harvey; Mr. and Mrs. Henry Watterson; Congressman Mann, Republican house leader, and Mrs. Mann.

Wedding Presents Are Many. The wedding presents were many and costly. In addition to the gift of President Wilson—two silver compotes—the bride was showered with presents from all parts of the country. The members of the house of representatives of the sixty-third and sixty-fourth congresses gave a necklace of 250 diamonds; Secretary and Mrs. McAdoo sent a solid silver pitcher; Justice and Mrs. Lamar sent a silver salver; Mr. and Mrs. Randolph Hearst, two silver dishes; Mrs. Samuel B. Sneath, vice-president of the general federation of women's clubs, a set of sixty cut glasses; Colonel Watterson, a silver pitcher; Assistant Postmaster General Dockery, a silver vase; former Secretary of State Knox and Mrs. Knox, a silver cake basket; Mayor Curley of Boston, a set of cut glass lemonade and tea glasses; Mrs. Mary Lockwood of Washington, D. C., one of the founders of the Daughters of the American Revolution, a set of silver and pearl fruit knives. After the festivities Mr. and Mrs. Thomson went north on their honeymoon. Their destination was not announced.

BRITISH AVIATOR KILLED. London, June 30.—Naval Flight Lieutenant L. E. Watson was killed near Eastbourne today while making a flight in a biplane. The machine became uncontrollable while at a height of 1,000 feet and plunged to the earth.

MOBS RAN MEXICO

Desperate Conditions Described in D from Vera

ARREST THREE

Charges of Conspiracy Late Neutrality Are Against Men in El Paso

TO HOLD HEARINGS

WASHINGTON, June 30.—The desperate conditions in Mexico with unchecked mobs rioting and looting, are described in dispatches to the United States government tonight from Vera Cruz, a courier who left the Mexican capital last Friday, June 25.

When the courier started practically the entire garrison had been withdrawn to join the Zapata army on the outskirts of the city opposing the attacking Carranza forces under General Pablo Gonzalez. Gonzalez had been driven back with considerable loss and was waiting for reinforcements coming up from Vera Cruz before renewing the assault.

Assume Foreigners Are Safe. No mention was made of attacks upon foreigners, so officials assumed that they were safe. Many stores had been looted the dispatches said and great mobs were rioting and seizing food wherever it was to be found.

The dispatches were forwarded immediately to President Wilson at Cornish, N. H., and the situation will be laid before Secretary Lansing when he returns tomorrow from Amherst, Mass.

The Mexican capital has been cut off from communication with the outside world by wire and rail for twelve days.

Make Three More Arrests. El Paso, June 30.—Three more arrests on charges of conspiracy to violate the United States neutrality laws were the definite developments in the Mexican situation here today. General Marcelo Caraveo, like and Frank Alderte were taken into custody, making a total of six arrests since General Victoriano Huerta was detained Sunday. In addition to the general charge, the Alderte brothers are accused of purchasing and mobilizing horses on their ranch east of El Paso.

George B. Oliver, United States commissioner, fixed Caraveo's bond at \$5,000 and the Alderte brothers at \$4,000 each for appearance tomorrow. Their case will be called for preliminary hearing together with the cases against Huerta. Gen. Pascual Orozco and Jose Zozaya.

Hold Resa in Juarez. It was established today that Salvador Resa, a former captain in Huerta's army, was held by the military authorities at Juarez. It was understood the Villa authorities had planned his execution because of evidence alleged to connect him with the new revolutionary movement, but had agreed to a suspension of the sentence. Whether the officer would be used as a witness tomorrow at the preliminary hearing of Huerta and others accused with him was uncertain. Officials in Juarez and El Paso were without additional advices on the fighting reported at Encarnacion, south of Aguas Calientes, between Villa forces and troops under Gen. Benjamin Hill. The reported arrival of Felix Diaz in El Paso last night still remains a mystery, all efforts to locate him having failed.

Any negotiations that may have been had relative to peace proposals between Villa and Carranza factions as credited to Jose Isabel Robles, remained in status quo.

Officers at Fort Bliss stated that monthly inspection is open to the public and that Huerta had not been given a special invitation, as reported from Washington.

Villa Retakes Lagos. General Francisco Villa has retaken Lagos after several days' continuous fighting, according to an announcement made tonight by Miguel Diaz Lombardo, minister of foreign affairs in the Villa cabinet. Lombardo received a message from Villa announcing the victory.

NORTH DAKOTA PROTECTS CHILDREN. Fargo, N. D., June 30.—There will be fewer crippled children in North Dakota, if the new law which becomes effective tomorrow, is properly enforced. It is a radical measure to prevent children under 14 years of age from being employed.

WASHINGTON, June 30.—The nearest approach to the billion dollar trade balance—the great- est in American history—in a year which has seen commerce depressed by eleven months of world war is the commercial record of the United States. Official announcement was made today at the department of commerce that with the closing of the fiscal year at midnight it was certain that the billion dollar mark had been passed.

"The figures for eleven months ending May 31st", it was announced, "show a favorable balance of \$983,117,479."

## K. OF P. LODGE REMEMBERS DECEASED BROTHERS.

Graves in Local Cemeteries Decorated—Geraniums Planted on Each One by Special Committee.

In accordance with the annual custom, Favorite Lodge No. 376, Knights of Pythias, decorated the graves of departed brothers in Diamond Grove and Jacksonville cemeteries yesterday. It is customary to decorate some time during the latter days of June. This year instead of using cut flowers the committee planted a geranium on the grave of each deceased brother.

The committee in charge of the decoration was composed of Jacob F. Claus, Jewell E. Scott, L. B. Turner, Edward Tendler and Oran H. Cook.

The deceased members buried in Diamond Grove cemetery are: Geo. W. Gillham, George Porten, William E. Waters, W. E. Baker, J. W. Harney, John M. Moore and Bert E. Taylor.

In Jacksonville cemetery they are: J. W. Robinson and Henry Brune.

A new development of the use of the automobile has just been marked in Cincinnati where 18 letter carriers have purchased cars for use on their routes. The government has agreed to make them certain allowances for repairs and maintenance because of the more rapid service expected.

There does not seem to be much prospect of an early settlement of Mexican affairs when it is remembered that just three hundred and ninety-five years ago yesterday there was a great riot in which Montezuma was killed. When the fatal blow was struck he was delivering an address to the people counselling them to allow Cortez and his invading army to depart in peace. The leaders of the present warring factions can find plenty of precedents in Mexican history for their unlawful acts.

It is gratifying to note that a new mark has been set in the United States trade balance for the fiscal year just closed and that it is in excess of one billion dollars, exceeding any previous record by many millions. The report by Secretary Redfield declares that this record was not made because of the export of war munitions but the facts are that the great increase in totals is because of the shipment of foodstuffs. So after all the increase must be credited to war conditions and further the lamentable fact remains that manufacturing conditions are not satisfactory the country over and a vast number of industries are idle or working with reduced forces.

The bill for a standard barrel passed by Congress during the closing hours of the last session, goes into effect today. Satisfaction with the new law has been expressed by merchants, farmers and shippers throughout the country. For fruit and vegetables and other dry commodities, the bill provides that the barrel must be made of staves 28 1-2 inches long, with heads 17 1-8 inches in diameter and a distance of 26 inches between the heads. The outside measurements of the bulge must be 64 inches. Although the barrel may be made in other forms, it must contain 7,056 cubic inches.

The use of any other than the standard barrel or any of its multiples will be punished by a fine of \$500 or imprisonment, or both. The law will be enforced by the U. S. Bureau of Standards and the Department of Commerce.

## America's Present Sentiment.

Three great sentiments, let us repeat, swept across the United States in June. First, we prize our blessings of peace and we will not fool about the fringes of Europe's war, nor will we be drawn by any untoward incident or process of logic into a European mid-continental contest for supremacy that is not ours to decide. Second, in an age like this we cannot afford to jeopardize our supreme right to live at peace, by being unprepared for self-defense. Third, all the people of Europe are akin to us, our civilization is derived from theirs in great part, and we must strive to help them find a basis for peace. To that end, we as citizens and as neutrals should do nothing that would put us in a false position or impair our national usefulness or influence in the great cause of world harmony.—From "The Progress of the World," in Review of Reviews.

## The Newspaper's Courage.

The following editorial in the Bluffs Times gives a truthful view of a situation which is not often understood by the general public: "Once in a while somebody gets the idea that the reason the local paper does not report every scandal that comes to public knowledge is because the publisher is afraid. That's not the reason. The reputable newspaper especially in a small town where every one is a neighbor to every one else, takes no delight in giving publicity to those things that have brought disgrace to some family or heartache to some wife or mother. It is much more pleasant to record the good things that happen, to tell about the incidents that tend to make life more endurable and that uplift rather than tear down, that bring joy instead of sorrow, pride instead of heartache.

"So if you don't always find in The Times the delectable bit of gossip that would doubtless make 'good reading,' and if you are inclined to blame the editor because he 'doesn't print all the news,' consider that some home has had enough worry over unfortunate happenings, and that the gossips and scandal mongers of the community can and will gladly and generously give sufficient publicity to the details to satisfy the lowest tastes. Incidentally, it might be remarked here that the most complaint of censored news comes from those who are new or have had

in their lives some things they are very glad were not given newspaper publicity. There come times, of course, when it is the definite business of the local newspaper to speak right out in meeting to tell what happened, to give open publicity to conditions that are a reproach to a community and for which the right of publicity seems the only cure. Tolerance is not a lack of courage."

## Jacksonville Will Benefit.

A Michigan man who drove his automobile to Jacksonville yesterday while enroute to Hannibal was very enthusiastic about the trees which line our city streets and about some of the residences and lawns. He declared Jacksonville the most beautiful small city he had seen in many miles of travel. The statement was not very new for that is what the visitor from afar usually says.

The comment brings to mind, though, especially two points. First, that it is generally visitors who talk about the beauties of Jacksonville rather than her own citizens. If we go away for a time and then come back these beauties strike us forcefully and we enthuse for a time but later we grow so accustomed to living in surroundings which nature has made more beautiful than the art of man alone could design that these attractions are ignored or accepted in a matter of fact way.

Another thought from the visitor's comment is that there are distinct advantages in having Jacksonville on several automobile trails. The number of persons travelling by automobiles is constantly increasing and this cities on the routes are visited by many people from distant points who will carry home with them impressions of the cities they visit. The auto trails mean in the course of time a lot of high class advertising for Jacksonville.

## GRAVES OF SOLDIERS MUST BE DESIGNATED IN ALL CEMETERIES

Bill Fostered by Woman's Relief Corps Which Becomes Law today Says Strict Record Must be Made.

The burial place of every soldier and sailor in Illinois must be designated in a certificate to be filed with the county clerk of the county where the cemetery is located, under the provisions of a bill signed by Governor Dunne, which becomes a law today. The Woman's Relief Corps fostered the bill, which was introduced by Thomas Campbell of Rock Island.

The law provides that every person, firm or corporation owning or controlling any cemetery or burial ground in the state must file with the county clerk a certificate giving the name, military or naval service in which the person was engaged, the number of regiment and company, if a soldier; the command, if a sailor or marine; the rank and period of service; the name and location of the cemetery, and the location of the grave of any person who has served in the military or naval service of the United States.

The bill further provides that the county clerk shall furnish the blank forms to be filled in by the cemetery owners and when filed with the county clerk, he shall keep them in a permanent record, conveniently arranged for ready reference. For this service the county clerk may charge a fee of 25 cents, which is to be paid by the cemetery owners.

The W. R. C., through its various branches, is also authorized to collect such data, without expense to the state and file it with the county treasurer. In this case, however, the Relief Corps is given permission to place more than one name on a certificate.

## CONFERENCE HELD BY CAPPS MILL EMPLOYEES

No Public Statements Made of Meeting at Court House.

Employees at the J. Capps and sons woolen mills held a meeting in the Circuit court room Wednesday night. No one was granted admission save employees and following the conference none of those in attendance were willing to make any public statement as to the purpose of the gathering. For several days there have been rumors of a desire on the part of the employees of one department for a change in the number of working hours. It is said that this question and some others were discussed at the conference last night and that a committee was appointed to present the matters considered to members of the firm. From all that could be learned it seems unlikely that there will be any serious differences between the employees and the firm, but on the contrary it is likely that the questions under discussion can be settled in a satisfactory way at a joint conference.

## CHILD WAS STRUCK BY BEAM WHILE IN WATER

William Burr, son of Mr. and Mrs. William Brown Burr of Los Angeles, Calif., met death in a peculiar manner, of which mention was made in the Journal several days ago. He was playing on the Hernsma beach with other children when a wave came in. The other children escaped it but the Burr boy was borne out by it and while struggling in the water was struck by a large piece of drift wood. He was knocked unconscious and injured internally. He made a brave fight for life but died after a month's illness.

## HORSES RAN AWAY.

## ATHLETIC EVENTS FEATURE OF CELEBRATION NEXT MONDAY

Jacksonville Merchants Offer Many Prizes for Successful Winners—Herr Barnetto, Cartoonist, Among Attractions.

One of the pleasing features of Jacksonville's grand Fourth of July celebration next Monday, July 5, is the program of athletic events which have been prepared by Prof. J. H. [unclear], chairman of the athletic committee, and Carl H. Weber, secretary of the Chamber of Commerce.

The program will consist of field and track events, interspersed with humorous contests of various kinds, and will start promptly at 2 p. m. in Central park. Several prominent local athletes have already entered the lists and many of the events promise to be of unusual interest.

Prizes will be offered to the winners and also in many instances to those gaining second place. These prizes have been donated by the merchants of Jacksonville as further evidence of their interest in the celebration.

An old-fashioned Punch and Judy show will be one of the special features. This act will be given on a special platform. Another attraction will be the well-known cartoonist, Herr Barnetto. He draws while a band plays and his sketches are of unusual interest.

The official program of athletic events follows:

50-yard dash—First prize, shirt, Myers Bros.; second prize, of candy, Jacksonville Candy Co.

Three-legged race—First prize, two flag handkerchiefs, Byrns.

Potato race—First prize, razor, A. H. Atherton; second, of candy, Peacock Inn.

Obstacle race—First prize, Lukeman Bros.; second, oranges, Cannon Bros.

Running broad jump—prize, sport shirt, committed, ond, necktie, A. Wehl.

Men's 50-yard handicap water—First prize, box of cigars, Graef; second, necktie, T. M. Minson.

Pie-eating contest—First prize, 1 lb. Jumbo peanuts, J. Claus & Co.

Bun-eating contest—First prize, 1 lb. Jumbo peanuts, J. Claus & Co.

Baseball throw—First prize, ball, T. J. Brennan.

Cricketer ball throw—First prize, baseball mit, committee.

The last two contests will be at the baseball grounds at Nick park, thus giving the players chance to demonstrate their prowess in ball throwing. Entries, however, will be open to the public at large in all the events and all are invited to try their skill. Every effort will be put forth on the part of the committee to make this part of the day's program interesting to all concerned, either as spectators or as contestants.

WHEAT IN MANY FIELDS  
NOW SAFE IN SHOCK

Active Work Has Been in Progress Since Monday's Rain.

The rain Monday kept Morgan county farmers from their wheat fields and there were some where harvesting work could not be begun until Tuesday afternoon, but there was great activity Tuesday afternoon and all day Wednesday, with the result that a great portion of the wheat acreage in the county was out and most of it is now safely in the shock. This year there seems to have been more than the usual difference in the ripeness of grain and a number of fields will not be ready for cutting until next week.

Out on Sheriff Graff's farm eight miles east of Jacksonville 33 acres were cut and shocked yesterday and Mr. Graff believes that it will thresh out 35 bushels to the acre. Daniel Bahan has a field of 95 acres on his farm near Waverly and the major portion of it was cut and shocked yesterday. It was also of excellent quality.

Travelers on the Wabash between Jacksonville and Springfield have been surprised to note the difference between many fields of wheat on the north side and the south side of the railroad, and in nearly all instances the fields on the south side of the road are in better condition although there are some exceptions to this rule. Some people account for this difference by saying that the soil is different north of the river from that south, and others hold to the theory that in some way the elevated roadbed of the Wabash changed the course of the wind, which did some damage to fields north of the road.

## Stagnant Blood Given A Quick Impulse

Wonderful Activity Im-  
parted by a Famous  
Remedy.

The appearance of pimples, boils, skin eruptions and all evidence of impure blood, calls for S. S. S., the famous blood purifier. Catarrhs, purges, bowel movers and laxatives won't do.

No amount of bile will destroy certain germs which cause blood and skin eruptions. They are away down deep in the tissues, perhaps in the very marrow of the bones. And such a condition calls for the searching influence of S. S. S. It is indeed a remarkable remedy, since it is taken up by the blood stream and never loses its medicinal influence. On and on it goes, through and through the entire system and always with the same definite action to dislodge germs, destroy their activity and stimulate the liver, lungs, kidneys, bowels and skin to throw them out completely.

It stimulates stagnant blood, provides a rational exhilaration to the nerve centers and thereby the natural functions of the body are aroused to cast out intruders, no matter how strongly entrenched they may be. It refutes the ancient theory that to destroy within us the germs that eat into our vitals calls for drugs that destroy our very existence. Get a bottle of S. S. S. today of any druggist and for special advice on severe blood disorders write at once to the Medical Adviser, The S. S. S. Co., 103 Swift Bldg., Atlanta, Ga. Do not accept a substitute. ### IN LOVING REMEMBRANCE

of James F. Green, Jr.

There was an angel band in heaven That was not quite complete, So God took our darling James, To fill the vacant seat.

Dear little son, he has left us; Left us, yes, for ever more; But we hope to meet our loved one On that bright and happy shore.

Heaven retaineth now our treasure; Earth the lonely casket keeps; And the sunbeams love to linger, Where our little brother sleeps. Lonely the house, and sad the hours Since our dear one has gone; But, oh, a brighter home than ours, In heaven is now his own.

Dearest brother, thou has left us, And our loss we deeply feel, But 'tis God that has bereft us, He can all our sorrows heal. Yet again we hope to meet thee, When the day of life is fled, When in Heaven in joy to greet thee Where no farewell tears are shed.

It is sad that one we cherished, Should be taken from our home, But the joys that do not perish, Live in memory alone. The few years we've spent together, The few happy golden hours, Shall be cherished in remembrance, Fragrant sweets from memory's flowers.

A Friend.

## OLD JACKSONVILLE

The Glovers

By Ensley Moore.

Member of Illinois State Historical Society.

### (First Paper.)

New York might have been a much more popular state, if so many of its people had not gone over into Michigan to make their homes.

Jacksonville has, in turn, been benefited by some of those who have come here—directly from Michigan, whether natives of that state or not.

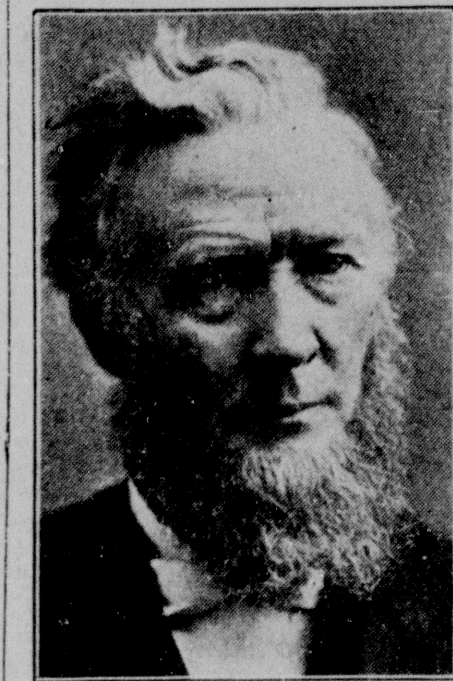

Livingston Maturin Glover was born in Phelps, Ontario county, N. Y., February 21, 1819, being the son of Philander and Ruhamah (Hall) Glover, natives of Conway, Mass. A sketch written in 1879 says of the Glover family: "Families having the name are common in all parts of Britain, among them persons of considerable distinction in their time. Two brothers, John and Henry Glover, emigrated to America, the first about 1630, settling at

Dr. Glover went abroad twice. His first trip was in 1858, when he went as far as Syria and Egypt. In 1873 he went as a delegate from the Presbyterian General Assembly of the U. S. A. to that of the Free church of Scotland. After his first journey he delivered a course of eight lectures in his church, in the winter of 1858-9, and they were highly interesting. He had a quiet vein of humor, and the lectures were further enlivened by that quality.

Dr. Glover was very faithful to his duty of preaching, and only ill health in the last few years compelled him to take an annual vacation. He was a good sermonizer, and looked the minister in his manner and dress, while not wearing any ministerial garb except the white cravat then usual. He had much dignity in the pulpit, and he was a genial man to meet, although rather unobtrusive in manner. He was a lover of little children, and an adherent to his friends. Politically he was an anti-slavery man.

One of the greatest trials of Mr. Glover's pastorate was when the first church building, which then stood on the southeast corner of West State and West streets, was burned, Dec. 21, 1861. For about five years thereafter he preached in Strawn's Hall. Meantime he had secured the erection of a large and far handsomer edifice upon the same site. The corner stone was laid Aug. 4, 1864, and the building dedicated Jan. 6, 1867. This was one of the largest and best churches in the state, and had a town clock with a particularly good bell. It was a creditable monument to Dr. Glover's proper ambition for his parish, and of his capacity as a constructive manager. Unfortunately, as is well known, it burned Sept. 6, 1883. This was the last building occupied by the First church society. It was merged in 1885 with the Central church, the united congregations being known since as the State Street Presbyterian church, northeast corner of State and Church streets.

Livingston M. Glover was a man above the average in literary ability. He was a good writer, good speaker, and wrote poetry worth considering. He had a remarkable faculty, shared at least by his son, L. B., of attaching friends and of holding their allegiance, as was abundantly shown in his career as a pastor here. Few men in Jacksonville have had the opportunity to meet, know and address and counsel so many people.

The Late Rev. Dr. L. M. Glover.

Dochester, the second about 1640, settling at Dedham, Mass. From the last subject of this sketch (Rev. L. M. Glover) was descended. The name is Saxon, originally spelled Gelfore.

Robert Glover was burned at the stake in 1555 in the days of "Bloody Mary." Richard Glover was born in London in 1712, was a merchant, poet and member of Parliament, dying in 1785, in London, England.

Philander Glover's family settled in 1800 in the "Genessee country," New York, then a wilderness. In 1833 they removed to the territory of Michigan, settling at Lodi Plains,

The old Glover home on Grove street now owned by Mrs. J. C. Fairbank.

Washtenaw county. There the coming divine "was ushered into the mysteries of farming." He had preparatory studies at Ann Arbor, Michigan, and was graduated from the Western Reserve College, at Hudson, Ohio, in 1840. He then pursued theological study, at Lane Seminary, Cincinnati, Ohio, from which he was graduated.

Mr. Glover was licensed to preach and began his ministry Oct. 1842 at Lodi, where his religious life had begun. His first idea had been to be a lawyer and he had a fine legal mind; but, the higher calling was heard by him, and his life given to it. Mr. Glover labored at Lodi from 1842 until 1848, about October 27th when he began his pastorate of the First Presbyterian church of Jacksonville, which was destined to be his last work, continuing until his death, July 15, 1880.

The First church belonged to the "New School" branch of Presbyterianism.

About a year after coming here, Mr. Glover bought from Moore C. Goltz, Oct. 25, 1849, the house now first west of Grace M. E. church—this being in 1915 the home of Mrs. Susan E. F. (Sewall) Barnes, lately deceased. There the Glovers lived until 1854.

Mr. Glover's work here was not confined to his professional duties alone, but he was for eighteen years a trustee of Illinois College and secretary of the Board. He was also a trustee of Jacksonville Female Academy for years, President of the Board a part of the time, and raised large sums of money in aid of its objects. He was an honorary member of several scientific associations, and received the degree of Doctor of Divinity from Center College, Kentucky, in 1864. He was also the founder of the Literary Union, a club of this city, which still continues its labors of a half century.

as Dr. Glover did during the (almost) thirty two years of his pastorate. The longest annual official term ever held in this city.

Dr. Glover was of medium height, with light eyes and hair. At first he wore side whiskers, but latterly a full beard.

Mr. Glover was married Aug. 16, 1843, to Miss Marcia A. Nutting, daughter of Prof. Rufus Nutting, formerly of Western Reserve College, and Marcia (Manning) Nutting. Prof. Nutting is supposed to have been born in Randolph, Vermont. Mrs. Glover, born in Randolph, Vt., was a sister of the Rev. Rufus Nutting, Jr., D. D., long professor in Illinois College, and of Prof. T. Dwight Nutting; both of whom lived in Jacksonville for years.

She was a woman of great kindness of heart, and efficient in church and Sabbath school work. The children who were in her "infant class" in the old church will not soon forget her motherly management of them.

Mrs. Glover was especially kind to girls employed as domestics, and was a counselor and guide to them. Those were not the days of numerous fads when she thus helped many a young woman needing her Christian and womanly advice, but her work was done out of the loving spirit of one able to see beyond church and denominational barriers.

Mrs. Glover was born Sept. 21, 1821, and she entered into her rest November 4, 1892. For some years she had not been a resident of Jacksonville. But when their earthly careers were run Dr. and Mrs. Glover slept side by side in Diamond Grove cemetery.

And many sorrowing people followed them to their last earthly resting place. "Beyond the weeping and the weeping,"

Cheney Proves Master of the Situation in Second Contest. While Schneider is Hit Hard—Phillies Down Braves.

**1c Will End Your Heavy  
Wash - Day Work!**

Madam, your hard-rubbing days  
of red, cracked and wrinkled hands  
are absolutely ended. Here's the  
greatest washing - fluid ever com-  
pounded. It's the cheapest in the  
world, does more and better work  
than anything you have ever used. It's

**"Favorite" Wash - Day  
Delight**

Two or three tablespoonfuls  
of it are enough. It costs you  
only about one cent. It's dif-  
ferent because it's a clothes-  
saver. It contains no clothes-destroying acids, caustics or  
alkalis. It cleans the most delicate fabrics, the coarsest  
cloth, with ease and safety. No more hard rubbing; no more  
washboard. The clothes come out white as snow. Even the  
ground-in dirt on collar and waist bands simply vanishes.  
"Favorite" Wash-Day Delight saves your hands; half your  
soap cost, saves your back, saves your money. Try it in the  
kitchen too, and for cleaning house. It's a magic worker.  
Needn't wait for wash-day. Get a bottle now. Money re-  
funded if you're not satisfied.

A six passenger, 135 inch wheel base, streamline touring car, electrically  
started and lighted; completely equipped. Don't purchase a little short Six  
that will bump you into nervous exhaustion every time you take it out into  
the country—Don't buy a makeshift Six that will keep you in a cramped  
position every time you use it but investigate this great, big beauty. The  
most car for the money that has ever been offered to the American public.  
It is built by one of the first men in the automobile industry. The motor  
and beautiful design of the car is due to the genius of Monsieur Rene  
Petard, one of Europe's foremost automobile engineers. Combining the  
work of these two men we have produced a masterpiece; a car that you  
will always be proud to have. Compare it with any automobile on the

### NELLIE HARDIN.

Mrs. Ellen Hardin Walworth, an-  
nouncement of whose death was  
made in Tuesday's paper, was  
known among her friends here as  
Nellie Hardin.

The family home was in a good  
sized frame house which used to  
stand just north of where the west  
end of Passavant hospital is now.  
She was as stated, the daughter of  
Col. John J. Hardin, who was killed  
in the battle of Buena Vista,  
Mexico, Feb. 23, 1847, this date be-  
ing according to Eames' History—  
instead of Feb. 27, as given Tues-  
day.

Mrs. Walworth visited this city  
some years ago, seeking data for a  
life of her father. I had then the  
pleasure of meeting her, but had  
seen her in Saratoga, N. Y., then  
her home, in 1860. At that time  
Mr. and Mrs. Joshua Moore, and  
Miss Julia S. Duncan—afterwards  
Mrs. E. P. Kirby—and I were east  
together. One evening we were at  
Chancellor Walworth's home to  
“tea”, as it was then termed.

A few days later I saw Mrs. El-  
len H. Walworth at a “hop” in  
Congress Hall, one of the great ho-  
tels of the time. She was accom-  
panied by her son, Frank, a bright  
and handsome boy of about ten  
years of age. We also met Lemuel  
S. Hardin, a brother of Mrs. Wal-  
worth, out at Saratoga Lake. He  
afterwards went to Kentucky to live.

Mrs. Walworth's elder brother,  
Martin D. Hardin, known here as  
“D”, visited here, as a West Point  
cadet just before the war. In that  
conflict he upheld the family name  
and that of Illinois, becoming a  
brigadier-general of volunteers, with  
a brevet of the same rank in the  
regular army. He was fearfully  
wounded at Antietam, as recalled,  
and lost an arm. During his con-  
valescence he made a visit here.

Gen. Hardin continued in the  
regular army until retired as bri-  
gadier-general, after which he went  
to Chicago, which is still his home,  
and became a lawyer there.

The other Hardin family referred  
to by Mr. Henry P. Day, was that of  
Dr. Chas. H. Hardin, brother of  
John J. “Charlie”, was a county  
clerk for years, enjoying a great  
popularity, as did Col. Hardin. Chas.  
Hardin last occupied the house next  
to west of old Grace church, the  
house being removed to make room  
for the present edifice.

Chas. Hardin had daughters,  
“Tinie” and Lucy, and sons William  
and John J. Mr. Hardin died about  
1882, and his family left Jackson-  
ville not long after.

### “MORNING GLANCES” (By Gosh)

Brooklyn finally got off of the  
bottom and the Reds got on the bot-  
tom. It seems funny about the  
Reds. The management spends lots  
of money for players and tries to  
get a winner but the team never  
seems to be able to beat anybody.

The White Sox kept up their win-  
ning streak by beating the Browns  
yesterday by a score of 8 to 6. It  
made a clean sweep of the series  
for the Sox. For the fourth time a  
triple did the work for the Sox. In-  
cidentally it also was the second  
time that Happy Felch has deliv-  
ered the extra base wallop.

Buck Weaver was there with the  
club getting himself three wallops  
and having two putouts and three  
assists and no errors.

Strange to say Eddie Collins did  
not get a safety. However, Four-  
nier got two.

The Cubs and the Reds divided a  
double header yesterday. The Cubs  
lost their first game 1 to 0 and won  
the second 2 to 0. The Reds won the  
first game on two hits while in the  
second game they only made four  
hits. The Cubs made eleven hits in  
the second but they were scattered  
and only resulted in two runs.

Padgett who pitched for Franklin  
last year will pitch the games for  
the Eagles July 5. Charley White  
will pitch the opening game on Sun-  
day.

The Braves lost to Philadelphia  
yesterday by a score of 8 to 5. The  
Braves made a great uphill fight  
but could not overcome the Phil-  
lies early lead.

Johnny Evers was in the game for  
the Braves but did not stick it out,  
Ritzpatrick taking his place.

Cannolly of the Braves was rendered  
unconscious by a drive from  
Cravatta's bat which took an ugly  
bound and struck him on the jaw.  
Cannolly was compelled to retire  
from the game.

Boston in the American beat Phil-  
adelphia a double header Wednes-  
day. In the first game Boston used  
fourteen men and Philadelphia  
fifteen. Mack used Schang at third  
base which shows that he needs  
Baker badly.

Schang didn't do so bad after all.  
He got two hits, one a triple, and  
had three assists without an error.

Kansas City beat Brooklyn yester-  
day by a score of 11 to 2. Chief  
Johnson, pitching for Kansas City,  
held the Brooklyn safe all the way.

Wonders will never cease. Buf-  
falo beat St. Louis yesterday by a  
score of 9 to 1. St. Louis a few days  
ago was on top, but yesterday they  
didn't look like a ball team. The  
Buffeds pounded Crandall, Watson  
and Willett hard, while Anderson  
was invincible allowing St. Louis  
but three hits.

The Stogies beat the Terrapins  
yesterday for the sixth straight  
game. The game was easy for the  
Stogies.

In a 12-inning game the Whales  
beat the Newark team yesterday.  
The final score was 7 to 6. Chi-  
cago, by a batting rally, tied the  
score in the ninth.

Pfeffer beat Marquard in a pitch-  
ing duel yesterday. For seven in-  
nings Marquard did not allow Brook-  
lyn but two hits. Then they got on  
him for six runs and won the  
game.

New York beat Washington by  
punching hits in the third and sixth  
innings. Hartzell made a home  
run.

The Tigers beat Cleveland 7 to 2.  
Steen kept Cleveland's hits scattered.

Dr. Albert A. Snowden of the Na-  
tional Association of Manufacturers  
has collected data showing that 22-  
000,000 persons depend directly for  
their livelihood on the manufactur-  
ing industries of the United States.  
This includes the 9,000,000 em-  
ployees of the various establishments  
and the members of their families.  
The total investment in the indus-  
trial plants of this country is \$24-  
000,000,000, and their normal year-  
ly output aggregates \$28,000,000-  
000, exceeding largely the amount  
of Great Britain and Germany com-  
bined. This is the great structure  
of industrialism the foundations of  
which have been sapped by demo-  
cratic experimentation and the ir-  
responsible representation in con-  
gress from the south, bossed by a  
president who has said: “I am not  
a business man.”

### REBUILDING ROOF.

Workmen are busy under the di-  
rection of William McCullough re-  
building a portion of the roof at the  
municipal light plant. Commis-  
sioner Vasconcellos found that a  
part of the roof of the old building  
was in really dangerous condition.  
Some new rafters are necessary, in  
addition to the new sheathing and  
outer covering. The work will not  
be very expensive, but will put the  
building into good and safe condi-  
tion.

### CARD OF THANKS.

We desire to extend our sincere  
and grateful thanks for kindness ex-  
tended in our bereavement by the  
loss of our son and brother.

### ANDERSON BANKS RELATES INTERESTING HISTORY OF HIS LIFE.

Has Been in Slavery and Tells How  
He and His Brother Sought Free-  
dom—Later was Waiter and Cook  
for 11th Mo. Cavalry.

A well known and successful col-  
ored citizen of this city is Anderson  
Banks, at one time a carrier for the  
Journal and a resident of Jackson-  
ville for nearly half a century. At  
the request of a Journal reporter,  
Mr. Banks narrated some incidents  
in his life.

“I was born March 4, 1848 in the  
beautiful valley of the Shenandoah,  
Virginia and its charms I well re-  
member. My family were the prop-  
erty of a man named Banks but  
he sold us all to Charles Yancey  
but we still went by the name of  
Banks' niggers. My master had a  
son Tom who married and moved  
to Saline county, Missouri, and when  
later Mr. Yancey's daughter, Miss  
Columbia, married Fred Tolliver of  
Baltimore, they too moved to Saline  
county.

“Each time a son or daughter of  
Mr. Yancey married he would make  
a wedding present of a man, a wo-  
man, two boys and a girl and my  
older brother and sister fell to Tom  
and I to Miss Columbia. I cried  
very hard when I was being taken  
from my childhood home but I was  
a nigger and my tears were too  
common to be noticed and I was  
taken along with the other goods  
and chattels. We went to Missouri  
and they cared for us two days  
excitement over the John Brown  
raid at Harper's Ferry and though  
the news was carefully kept from  
us we still heard much and began  
to think of freedom. We were  
closely watched and kept hard at  
work but still we kept up a big  
thinking and finally about the early  
part of 1862 my brother and I de-  
cided to run away. It was indeed  
a trying undertaking but we deter-  
mined to be free so preparing some  
food and packing up a few clothes  
into two bundles we waited for the  
darkness of night and started out.  
The watch dog heard us and barked  
but we quieted him and started  
away.

They didn't miss us till next morn-  
ing and then they tried to catch us  
but we were too sharp for them. We  
sought a creek not far from the  
house and waded a long distance in  
that and threw them completely off  
the scent and taking to a thick  
wood in the morning we crept into  
a thicket and lay down. I was tired  
enough and my older brother  
kept watch and during the day we  
heard our pursuers. My heart al-  
most stood still but I knew what  
it would mean if we were caught  
and so kept still and at night we  
started on our way.

“We had to pick our way and be  
guided by the stars for Marshall  
was our objective point. By morn-  
ing we were desperately hungry  
but didn't dare go to a white man  
for aid but finally we saw a color-  
ed man starting out to work in a  
field and accosting him told our  
story. He said we would have a  
hard time getting away but he  
would feed us and hide us till night  
and would then take us as far as  
he dared. I shall never forget his  
kindness as long as I live.

“We reached Marshall all right  
and found there a lot of union sol-  
diers and they cared for us two days  
and then with about forty more like  
ourselves started for Sedalia. We  
were escorted a part of the way by  
union soldiers and finally when they  
thought there was no danger they  
left us but soon Confederate bush-  
whackers were after us and we scat-  
tered in good shape. I was sepa-  
rated from my brother and with six  
others tried to get away. We were  
accosted by some men working in a  
field and it was plain that we were  
fugitives. The reward for returning  
such as we were was \$20 each so  
five men took us in charge and started.  
We were afoot and they on  
horses and when we came to a thick  
forest one of our number lifted his  
bat and saying “Good morning, gen-  
tlemen,” darted off into the woods  
followed by four more of our num-  
ber.

“Our captors dismounted and leav-  
ing one of their number to hold  
the horses took after the runaways.  
The man that was left with myself  
and another boy grew tired of wait-  
ing and thinking we wouldn't try  
to get away started after the others.

“My companion and I decided we  
wouldn't be quite so easy and so we  
started off too. Taking off our shoes  
we left them and put off for dear  
life. We went on and on not know-  
ing where and by night I became  
fearfully hungry. At last we saw  
a house and going to it found our  
captors had been there looking for  
us but we assured the man we were  
not the ones the bushwhackers were  
after. We said we had been cap-  
tured by the Yankees and has es-  
caped and were trying to get back  
to our owner and asked the way.  
The man took our word, fed and  
kept us over night in his barn and  
let us go in the morning. My com-  
panion went his way and I went mine  
and finally I landed at Marshall  
and was rejoiced to find my brother.  
There a week and then the com-  
mand left for Sedalia and lot of us  
contrabands followed in the rear but  
we were cut off by a gang of rebels  
and scattered again. In the company  
that cut us off were two men not  
unknown in Jacksonville but I pre-  
fer not to mention their names. That  
was indeed a misfortune but that  
time my brother and I kept togeth-  
er and ran for dear life. We man-  
aged to elude our pursuers and hide  
in tall weeds with beating hearts  
while the rebel cavalry rode by and  
near us but didn't see us. We had  
a fearful time and hardships and

escapes that would make quite a  
book. We occasionally found a kind  
hearted person who would help us  
and when we could get along with  
one of our own race we never fail-  
ed.

Finally we came to the home of  
a Union man named Thomas and he  
heard our story all right and said he  
would take me in and call me his  
own, but couldn't take my brother.  
I was with that good man three  
months and shall never forget his  
kindness. Rebel soldiers often came  
along, but I was kept all right. One  
time there were several hundred  
near the place, but the 11th Mis-  
souri cavalry came along and the  
rebels decided to stay hidden. I said  
goodbye to my kind friend and  
joined the soldiers and again found  
my brother. I was a big boy and  
wanted to enlist, so we tried a col-  
ored regiment, my brother assuring  
the officer I was old enough, but  
drill work was too hard for me and  
I had to give it up, as I was so young  
and raw.

ri cavalry till the close of the war,  
ri cavalry till the close of the war,  
about two years, serving as captain's  
waiter and cook, and at the close of  
the war I went with Lieut. Cardwell  
to the eastern part of Missouri and  
worked for him on his farm some  
two years and then went to work for  
Al Dod who used to live here and  
from his employ I came to Jackson-  
ville.

Coffee Talk, No. 3

America's Cup, America's Cup, America's Cup, America's Cup, America's Cup, America's Cup

I Use Six Different  
Varieties of Coffee to  
Secure the Right  
Blend for

America's Cup

A COFFEE bean is like a honey comb  
—it has little cells filled with oil  
which is the essence of coffee. Aging  
it “in the green” (before roasting)  
changes this oil from tannic acid to  
a rich, mellow, smooth flavor.  
No coffee used is less than two  
years old.

ANYONE can easily  
see what green cof-  
fee will do by placing a  
few grains of it in a  
vessel with the white  
of an egg. The egg  
will soon assume  
a green grassy  
appearance.

I INVARIABLY use properly cured  
I coffees for the blending of “America's  
Cup”; blending the oils of all the varieties  
so they produce a most delicious flavor.

GREAT changes have been made in  
the growing of coffee by using the  
Luther Burbank methods of propagation.  
Transplanting Java coffee produced var-  
ieties of Bogata and transplanting  
Mocha coffees produced Bourbons—more  
plentiful and of better quality than the  
originals.

BY COMBINING these with other high  
quality coffees and eliminating the  
rank Rio kinds I have produced a perfect  
family coffee.

## SUNDAY BAND CONCERT AT NICHOLS PARK

Secretary Weber of the Chamber of Commerce has arranged for a band concert at Nichols park Sunday afternoon at 4 o'clock in the band stand, in its ideal location just east of the large pavilion. Prof. Jeffries is making unusual preparations for this event and will offer all who attend a bill which they will much enjoy.

Sunday will be the fourth day of July and it is well to have such a celebration as this, for it will fittingly remind all of the grand anniversary and will furnish an opportunity to enjoy free of charge some splendid music by our band, of which we all have such good reason to be proud. With good weather there will doubtless be a large attendance and all who go may depend on having a treat such as is not often enjoyed.

## MORTUARY

Hurst.

The following is a sketch of the life of Mrs. James S. Hurst of whose death brief mention was made in Wednesday's Journal. Sarah Drew was the daughter of Samuel and Bridget Kelly and was born in Georgetown, Ky., in April 1849. Her parents removed to Illinois in her infancy and settled in Brown county.

She was united in marriage to James S. Hurst in this city June 29, 1869 and Tuesday was the 46th anniversary of the wedding. She is survived by her husband and four children, Mrs. Sarah Corrington, James S. Hurst, Jr., and George Hurst of this city and William Hurst of Chicago. There also survive one brother, William Drew of Mt. Sterling and one grand daughter, Mrs. Fred Eyres and one great grand daughter, Miss Charline Eyres of Havana.

Mrs. Hurst was devoted to her family and her one thought was of their comfort. She was a mother in the true sense of the word. One beautiful trait of her character was that she never spoke slightly of anybody. In her death the husband loses a loving helpmeet and the children a faithful and devoted mother.

Mrs. Hurst was all her life a member of the Catholic church. The funeral will be held from 9 o'clock. Interment will be in Calvary cemetery.

Payne.

Word has been received in Mt. Sterling of the death at Marysville, Tenn., of Mrs. G. M. Payne, wife of Rev. Mr. Payne, formerly pastor of the First Presbyterian church of Mt. Sterling, but now of Noblesville, Indiana.

Robertson.

Thomas Robertson, a well-known farmer residing three miles north of Tallula, died Monday as the result of an operation for appendicitis.

## MATRIMONIAL

Riley-Davis.

Miss Grace Riley of Stafford, Kansas and Mr. Chas. Clifton Davis were united in marriage at St. John, Kansas by Rev. D. M. Yetter of the Methodist church, June 28th, 1915. They were accompanied by Mr. and Mrs. Ralph M. Goltra, cousins of the bride.

Miss Riley is the younger daughter of Mr. and Mrs. J. W. Riley, formerly of the Durbin neighborhood, where she began her education, later finishing her studies in Stafford, Kansas. All know her by her loving and happy disposition.

Mr. Davis is the son of Mr. and Mrs. C. E. Davis, an extensive farmer of Pisgah, Illinois. Mr. Davis finished his education at Shurtleff College and Jacksonville Business college. Mr. and Mrs. Clifton Davis will reside on a farm near Pisgah.

In the evening a delicious supper was served at the home of Mr. and Mrs. J. W. Riley in honor of the event. The dining room was decorated in pink and white carnations.

## SECURES GOOD POSITION.

Henry Ricks of Allen avenue has gone to Ottawa, Kansas to spend the summer at the home of his sister, Mrs. A. G. Matson. He was graduated in manual training at the High school last May and has secured a position in a furniture factory in Ottawa.

## SON OF JACKSONVILLE MAN KILLED ON AN EUROPEAN BATTLEFIELD

Duncan Ferguson Notified of the Death of Alex Ferguson Who Had Enlisted in a Canadian Company—Shot Through Head While Serving With Troops Near Festubert.

Duncan Ferguson, head dyer at Capps Woolen Mills, has received word of the death of his son, Alex Ferguson of the English army, who was killed in action with the German forces on the Franco-German frontier. Alex Ferguson was a private in a Canadian company which went from Montreal to the front in Europe.

Mr. Ferguson received a semi-official notice of his son's death about a week ago. On account of the uncertainty of those killed in battle he had hoped that the news was not true.

Official confirmation came to the family through the publication of the official casualty list published by the British government in a paper in Regina. This list contained the name of Private Ferguson. Ferguson had enlisted from Regina, Saskatchewan in a corps of guides. After reaching London he was taken ill with spinal meningitis. Upon his recovery he was offered a place in the ranks to convey wounded prisoners to detention camps. He preferred active service and was placed with the fifth battalion of the Infantry of the Second Brigade of the British expeditionary forces.

Ferguson was 27 years of age and was a member of the guides corps because of his fine physique. He was noted as a football player having been a member of the Hamilton team which a few years ago won the all Canadian championship.

Besides his parents he is survived by the following brothers and sisters: Will of Montreal; John of Dundas; Duncan in Massachusetts; Berta, Jean and Margaret at Dundas and Elizabeth and Catherine who are nurses at Yonkers, N. Y. Mr. Ferguson will leave today for Montreal where the family resides, to be with them.

The letter received from the sergeant in Ferguson's company telling of his death follows:

Dear Sir: I write these few lines in connection with Pte. A. Ferguson, number 13,736, Fifth battalion, Canadian overseas contingent which I think is your brother. I am sorry to say that he has met his death on the battlefield near Festubert. His death was instantaneous, as he was shot through the head. He was lying between the Germans' first line of trenches and their second. We took the trenches on May 31. We buried him on June 1. Our men who buried him gave me four photographs, a diary and his cigarette case, which was full and is still the same. I am forwarding the photographs and scraps of a letter which was found in his pocket. I will send the diary and the case as soon as you let me know that you have received this. I do not doubt that he gave a good account of himself, as he got so far in the attack which was successful.

Well, I must conclude this sad news and trust that you will not think me too forward in writing these few lines. I remain, yours truly, etc. F. Halls.

Please favor us with the payment of your bill between July 1st and 10th. ALL BILLS NOT PAID BY THE 10TH will be given to our collector for settlement. We must reduce our credit business. We need the money to meet our own obligations.

## MAKING AUTOMOBILE TRIP.

Mr. and Mrs. Harry Taylor and Mr. and Mrs. Harry Scott of Hutchinson, Kan., were guests of Prof. and Mrs. C. C. Jeffries Wednesday en route home from an automobile trip to the White Mountains in New Hampshire.

Mr. Scott was a member of the Commercial club of Hutchinson and played in the band while Prof. Jeffries was in Hutchinson. He formerly was a resident of Springfield and played with the original Juvenile band of the capital city. In addition to all these faults, Mr. Scott is city editor of the Commercial News of Hutchinson. When asked by Prof. Jeffries why he did not call on the local newspapers, Mr. Scott said that he wanted to go as far away from work as possible. In this most people who work on newspapers will agree with him, though we don't see how he got by an office when he smelled ink.

Mr. Taylor is agent for the Ford automobiles in Hutchinson. He says that he sold 800 cars last year and expects to sell a thousand this year.

### SOUTH MAIN STREET PAVING PROJECT MEETS WITH FAVOR

Many Residents There Favor Having the Work Done This Year—Tartaria For Re-topping Work Has Been Suggested.

Inspired somewhat by the success of the movement to provide for a new pavement on West State street and also urged on by the necessity for the improvement, residents of South Main street are actively at work in the effort to secure a sufficient number of petitioners to have that street re-topped this season. The indications are very favorable for the accomplishment of this work and it seems now as if the next thing to do will be to decide upon the material used. A number of residents who have looked into the merits of tarvia believe that in their particular instance that this type of pavement will be the most satisfactory and inexpensive.

Although the use of asphalt as a covering for worn out brick pavements has not been very successful in a number of cities where it has been tried, it is claimed that the opposite holds true with tarvia and that this material can be used with success for re-topping purposes. Several Jacksonville people who a year or two ago went to Hannibal to examine some tarvia work there were favorably impressed and there are samples also to be seen in Peoria. Those who have investigated the matter with reference to South Main street are confident that a tarvia dressing on top of their pavement would give satisfactory service and that the cost would be much less than for any other material.

A meeting will be held this evening in the rooms of the Chamber of Commerce at 7:30 o'clock, at which time all persons interested in the improvement will be present and give their views of the matter.

### WILL BEGIN OILING WORK ON SOME COUNTRY ROADS

Two Mile Stretch From Mauvalsterre on North Main Road to C. S. Black's Residence to Be Put Into Condition First—Lake Work Contracted on Springfield Road.

This morning if the weather is not unfavorable W. H. Cocking will begin the work of oiling two miles of roadway stretching north from the Mauvalsterre bridge on North Main street. The contract calls for the oiling of a 12-foot roadway from that point north to the home of Charles Black. What little grading or dragging work has been necessary has been attended to by the highway commissioners, and Mr. Cocking is now to oil the road and keep it in condition. The contract price for the work is \$200 a mile. Mr. Cocking believes that on most of the road but one oiling will be necessary, but that at points of crossing or conjunction with other roads that two or more oilings will be required. He will put the oil on hot, as the equipment he uses has a kerosene heating attachment which makes this modern method of application possible. It is claimed that by putting the oil on hot that it can be spread much more evenly and that it soaks in the ground better and more rapidly than if applied in the thick and gummy condition that characterizes it when cold. The oil for dirt roads is much heavier in quality than that used on pavements.

As soon as this two-mile stretch is completed, work will begin on another two miles beginning at the city limits on East State street and extending east two miles. It is Mr. Cocking's hope that when these two stretches have been finished that other work of the same class will be decided upon and the two stretches extended to a considerable extent. The price he has made for the work thus far contracted has been fixed somewhat with this expectation, as he states that there is very little profit at the price named. Mr. Cocking contracted with Charles S. Black, Stansfield Baldwin, Charles Cully and Frank J. Heil for the two stretches mentioned, as they have been the ones who organized the property owners to undertake the work and pay for it. Mr. Cocking has recently finished oiling the streets in Arendville and the contract he has at Winchester was interrupted last week by the heavy rains but will be resumed very shortly.
